Committees for processing proposals upto upto Rs. 5 lakhs.

(b) Details in this regard are being obtained.

(c) The working of CAPART is reviewed from time to time in the meetings of the Executive Committee and General Body of CAPART and, where-ever considered necessary, suitable steps are taken to strengthen its working. This is a continuing process.

As mentioned in reply to part (a) of the question in order to bring CAPART nearer to the people and to ensure closer inter-action between it and the voluntary agencies, the functioning of CAPART has been decentralised by setting up six Regional Committees at Jaipur, Lucknow, Ahmedabad, Hyderabad, Bhubaneshwar and Guwahati. The Regional Committees would now consider project proposals upto an outlay of Rs. 5 lakhs in their respective regions. It is expected that the decentralisation of CAPART would result in improving its efficiency and efficacy.
